Office Memorandum • UNITED STATES GOVERNMENT

25X1A9A TO : Director of Training
Attn : [REDACTED]
FROM : Chief, Liaison Division, C & D

DATE: 23 December 1952

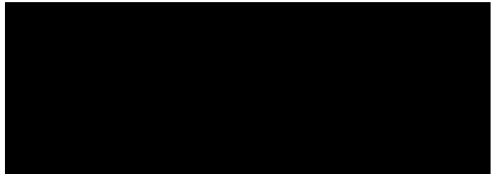

SUBJECT: Procurement of Publications re: Search Techniques
and Concealment Devices.

Reference: Your Memorandum to Chief, Liaison Division, dated 4 November
1952. Subject: Procurement of Publications
Our RD A-4703

1. Pursuant to the above referenced request, the Bureau of Customs reports that it does not have in its possession printed material relative to search techniques and concealment devices. It does, however, offer a six weeks training course on the subject at its New York office.

2. Customs officials here in Washington have informed us that the only way that the desired information could be had would be to send personnel to New York to either take the course or to confer with the instructors in private. If the latter choice were made, perhaps the pertinent information for our purposes could be obtained in a few days time.

3. Should you be interested in sending personnel to New York, this Division will gladly effect the arrangements with the Bureau of Customs.
